

Year 6 Spring Newsletter

Happy New Year and let's hope it is a good one, filled with enjoyment, new learning, success and most of all... fun!

Our Topic – The Environment/ Endangered Earth

Year 6 will be carrying out lots of research and discovering how the environment and Earth has changed. They will explore how animals, plants and humans have been affected.

Science – Evolution and Inheritance

Children will be continuing their learning about how humans, animals and plants evolved into what we know today. So far, the children have loved this topic! It would be a fantastic discussion point about inheritance, if children could bring in a photo of a parent or grandparent.

PE

We will be continuing with Cross Country after Christmas. Please ensure that your child has appropriate kit for outdoor, wet and muddy weather.

- A change of trainers
- A change of socks
- Shorts and joggers/sports leggings
- Green Bader top
- Hoody or sweater

Home Learning

After Christmas, children will be given three SATS style booster booklets. One for maths, SPAG and reading. Each booklet contains 10 minute tests for your child to complete at home. The answers are in the back, you can use these to check their work. It should not take more than half an hour a week.

Please also encourage your child to access Times Table Rock Stars and Spell Shed each night for 10 minutes.

SATs Booster

SATs boosters will be starting in January. Children have been chosen based on teacher assessment and will be in small groups with a member of staff to really focus learning. Further details will be given out after Christmas.
